MEMORANDUM FOR COMMANDER, North Atlantic Division

SUBJECT: Implementation Guidance for Section 4001 of the Water Resources Reform and Development Act (WRRDA) of 2014 – River Basin Commissions.

1. Section 4001 of WRRDA 2014 amends Section 5019 of the Water Resources Development Act (WRDA) of 2007 and directs the Secretary to allocate funds to the Susquehanna and Delaware River Basin Commissions and the interstate Commission on the Potomac River Basin. The amount allocated should be equal to that determined by each commission in accordance with the respective interstate compact approved by Congress. Further, if funding is not allocated, the Secretary is directed to submit a notice to the Committee on Environment and Public Works of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives with the Agency's Annual Budget submission. The notice shall describe the rationale for and impact of not allocating such funds. A copy of Section 5019 of WRDA 2007, as amended, is enclosed.

2. Funding for the River Basin Commissions may be considered for inclusion in the budget in accordance with the annual budget engineering circular. If funding is not allocated to these Commissions, the District Engineer will prepare a draft notice describing the impact on water supply allocation, water quality protection, regulatory review and permitting, water conservation, watershed planning, drought management, flood loss reduction, recreation and energy development and forward the draft to the NAD RIT for review and coordination with the Secretary for submission to Congress as part of the Budget submission.
