NOW, THEREFORE,

#### ARTICLE I - PURPOSE AND AUTHORITY

Pursuant to Section 214 of WRDA (P.L 106-541) ("Section 214"), as amended, this Agreement is entered into by and between the Army and the County (collectively referred to as "the parties") for the purpose of establishing a mutual framework governing the respective responsibilities of the parties for the acceptance and expenditure of funds contributed by the County to expedite the evaluation of permits under the jurisdiction of the Army.

#### ARTICLE II - SCOPE

A. The County will provide to Seattle District at the beginning of each fiscal year beginning October 1, 2007, an amount to be agreed upon by the County and the Seattle District to expedite the evaluation of various County permits under the jurisdiction of the Seattle District. All funds transfers under this Agreement will be between the Seattle District and the County. It is understood that the use of funds accepted hereunder will not impact impartial decisionmaking with respect to permits, either substantively or procedurally. The Army Corps of Engineers' regulatory program is funded as a Congressionally appropriated line item in the annual Federal budget. Additional funds received from non-Federal public entities will be used to expedite the evaluation of permits.

B. The Seattle District will establish a separate account to track receipt and expenditure of the funds associated with its review of the County permits. Seattle District regulatory employees will charge their time against the account when they do work to expedite resolution of any County permit request.

C. Funds contributed by the County hereunder will mainly be expended on the salaries and overhead of Corps Regulatory Project Managers performing expedited

processing activities for the County. Such activities will include, but not be limited to, the following: application intake review, drawings correction, jurisdictional determinations, site visits, public notice preparation, preparation of correspondence, conduct of the public interest review, preparation of draft permit decision documents, and meetings with the County. Funds will also be expended for the administration and tracking of the funds contributed under Section 214. Funds will *not* be expended for review of Project Managers' work by supervisors or other persons or elements of the Seattle District in the decisionmaking chain of command. Enforcement or compliance activities will not be paid for from the funds contributed by the County hereunder, nor will such funds be used for paying the costs of public hearings and distribution of public notices.

D. Funds may also be expended by other Corps elements (including but not limited to Environmental Resource Section, Engineering Division, PSDDA, etc.) or to hire contractors to perform select duties, such as site visits, technical writing, copying, reviewing drafts of reference general biological assessments for use by the County and others, preparing regional general permits for use by the County and others, Essential Fish Habitat determinations, and other technical documents, including draft environmental documents. All activities described in this paragraph and paragraph C. above will be performed in accordance with a management plan to be agreed upon by the parties.

### III. IMPARTIAL DECISIONMAKING

A. It is understood and agreed that in order to ensure that the funds will not impact impartial decision making with respect to County permit applications, the following procedures, mandated from Headquarters, U.S. Army Corps of Engineers, will apply to all cases using additional funds provided by the County as a participating non-Federal public entity:

1. All final permit decisions for cases where these funds are used must be reviewed at least by one level above the decisionmaker, unless the decisionmaker is the District Engineer. For example, if the decisionmaker is the Chief, Regulatory Branch, then the reviewer would be the Chief, Operations Division.
2. All final permit decisions for cases where these funds are used will be made available on the Seattle District Regulatory web page.
3. The Seattle District will not eliminate any procedures or decisions that would otherwise be required for the type of project and permit application under consideration.
4. The Seattle District shall comply with all applicable laws and regulations.

5. Funds will only be expended to expedite the final decision on the permit application. Funds will not be expended for the review of the decisionmaker's decision. If contracts are used to develop decision documents, such decision documents must be drafts only and be reviewed and adopted by the Corps regulatory program employees before the decision is made.

#### ARTICLE IV - COMMUNICATIONS

To provide for consistent and effective communication between the Seattle District and the County, each party shall appoint a Principal Representative to serve as its central point of contact on matters relating to this Agreement. The County principal representative is:

Either party may terminate this Agreement by providing written notice to the Principal Representative of the other party at the listed address above. Such termination shall be effective upon the sixtieth (60) calendar day following such notice. In the event of termination, the County shall continue to be responsible for all costs incurred by the Seattle District under this Agreement prior to the effective date of such termination.

C. Within sixty (60) days of termination, or the expiration of the Agreement, the Seattle District shall conduct an accounting to determine the actual costs of the work. Within thirty (30) days of completion of this accounting, the Seattle District shall return to the County any funds advanced in excess of the actual costs. Funds may be provided to the County either by check or by electronic funds transfer.

ARTICLE VIII - EFFECTIVE DATE
