RE: Submittal of Request for project funding under WRRDA-14, Section 7001
by Fort Bend County, Texas

Dear Mr. Stockton

The City of Richmond is pleased to support Fort Bend County's request for project funding for a Feasibility Study to address ongoing riverbank erosion along the Brazos River within and near the City of Richmond, Texas. This ongoing problem constitutes a threat to public and private infrastructure within and near the City of Richmond, Texas.

The Fort Bend County Commissioners Court unanimously supports a partnership between the County and the U.S. Army Corps of Engineers to address the ongoing problem. The City of Richmond supports the County's efforts. We understand the County proposes to provide funding and or in kind services as the non-Federal match for the Project.

We look to supporting the County's partnership with the U.S. Army Corps of Engineers to address this important issue. If you have additional questions, please do not hesitate to contact myself or our City Manager, Ms. Terri Vela, at 281.342.5456.

Mayor Evalyn Moore
